**POSTAL TREATY WITH MEXICO.**  
An Order Expediting Mail Across the Border.

During a recent trip to Mexico, Superintendent O. L. Teachout of the railway mail service for this district, effected a treaty with the Mexican officials regarding the postal service between the two countries, which will prove of immense benefit to the business of the United States.  
The dispatching of mails into Mexico has been far from satisfactory for some time, owing to the fact that they were held in the border for twenty-four hours for purposes of inspection and making assessments on a dutiable matter. Also the manner in which mail was sent from that country to this. The Mexican postal officials have been sacking all mail regard less of territory in one pouch, leaving it to the postal clerks of this country to make the proper distribution.  
The great bulk of the mail matter sent to Mexico goes through Nuevo Laredo, and is handled at that postoffice. In order to partly expedite the delivery of mail matter to Mexican points the U. S. Post Office at Laredo run has been divided into separate pouches to the different important cities, throwing packages that may contain dutiable matter in pouches thus marked. But this arrangement has proven far from satisfactory.

The new treaty, which goes into effect next Monday, will do away all delays of mail except

...this section of the country. A short distance back very good water was obtained on some of the ranches above the city at a depth of 150 feet, and being satisfied with good enough, the parties were content with a limited quantity. However, at the Oso ranch, a few miles above the city, a well was recently bored to a depth of 165 feet and a first class quality of water spouted up in the casing to a height of 135 feet.

The fact promises to be irrefragable, his undoubted success in this section, the fact being clearly proven that all that is necessary to obtain all the pure water needed is to bore deep

**THE ALASKAN BOUNDARY.**  
Honorable John Truitt, Ex-governor of the Territory, in discussing the Alaska boundary question, Hon. Warren Truitt, retiring United States Judge of Alaska, having turned over his office to his successor, Hon. A. Delaney, said:

"The unanimous opinion on the boundary question is that the line should stay where it is. The people do not want England's contention, for it would take some of the best of Southwestern Alaska and control the Yukon trade. The people are opposed to any more of England's map making and they don't want arbitration, for they consider there is nothing to arbitrate. They have seen enough arbitration in the Behring Sea controversy, in which England got all she desired. The line is where it has been conceded for years, but they recognize the contention.

It is received with favor. The question is taken bearing on the Alaskan boundary dispute. The people are opposed to any more of England's map making and they don't want arbitration, for they consider there is nothing to arbitrate. They have seen enough arbitration in the Behring Sea controversy, in which England got all she desired. The line is where it has been conceded for years, but they recognize the contention.
